
CAMPUS SECURITY AUTHORITY

Geography

Institutions are required to disclose statistics for reported Clery crimes that occur:

- On-campus,
- On public property within or immediately adjacent to the campus,
- In or on non-campus buildings or property owned or controlled by the institution, including residence halls, and
- Separate campus

Campus Geography Breakdown

On-campus Geography

- *Includes buildings and properties:*
 - Owns or controls,
 - Reasonably attached to one another, and
 - Directly supports or relates to the institution’s educational process.
- *On-campus Geography also includes buildings and properties:*
 - Reasonably attached to it,
 - Owned by the institution but does not control,
 - That is frequently used by students, and
 - Used to support the institution’s educational process.

Non-campus Geography

- Includes any location (except a separate campus) that:
 - Is owned or controlled by the institution,
 - Supports or is used for the institution’s educational process,
 - Is frequently used by students, and
 - Is **not** considered part of the core campus.
- Also includes any building or property owned or controlled by a student organization if the organization is “officially recognized” by your institution.

Public Property

Properly defining what’s “on-campus” is vital—not just for disclosing on-campus crime statistics, but for accurately identifying another category of Clery geography.

- *Examples of Public Property within the campus:*
 - Public road or bike path that runs through campus.

-
- Public or municipal parking lot that crosses or intersects the campus.
 - Public property that immediately borders and is accessible from the campus.
 - Public sidewalks
 - Public streets along the sidewalk
 - Public sidewalk on the other side of the street

Separate Campus

For an institution that has more than one campus, each campus must comply independently with all of Clery Act and the fire-and-safety-related HEA requirements. For the purpose of geography, consider each additional campus location as a *separate campus* if it meets all of the following:

- The institution owns or controls the site;
- It is not reasonably geographically attached to the main campus;
- It has an organized program of study; and
- There is at least one person on site acting in an administrative capacity.
