

## University-Wide Policy Statements

### Reporting Crimes or Other Emergencies

The University strongly encourages students, faculty and staff to accurately and promptly report all crimes to their respective campus security offices and the appropriate law enforcement agencies. Prompt, accurate crime reports facilitate successful investigations and enforcement, inform prevention efforts, aid in issuance of timely warnings and disclosure of crime statistics

in this Report, and educate the University community. Crimes should be reported when the victim elects to or is unable to make a report (note, Campus Security Authorities or CSAs, listed below, have special reporting obligations). To report a crime or other emergency at your campus, please contact your campus security personnel:

#### Homewood Campus
