Safety Information
The following information is provided as tips to stay safe:

Trust your instincts. If you feel unsafe in any situation, go with your gut. If you see something suspicious, contact law enforcement immediately (local authorities can be reached by calling 911 or Campus Safety & Security can be reached at (410) 516-7777).

Be aware of your surroundings. Knowing where you are and who is around you may help you to quickly find a way to get out of a bad situation.

If you need to get out of an uncomfortable or scary situation here are some things that you can try:

• Remember that being in this situation is not your fault. You did not do anything wrong. It is the person who is making you uncomfortable and engaging in the behavior that is to blame.

• Be true to yourself. Don’t feel obligated to do anything you don’t want to do. “I don’t want to” is always a good enough reason. Do what feels right to you and what you are comfortable with.

• Have a code word with your friends or family so that if you don’t feel comfortable you can call them to communicate your discomfort without the person you are with knowing. Your friends or family can then come to get you or make up an excuse for you to leave.
